Adam Smith's

Lectures on Rhetoric and Belles Lettres 1762–3

Edited by JOHN M. LOTHIAN

This is a book of outstanding importance, not only as a hitherto unpublished work by Adam Smith, but also because these were probably the first lectures to treat classical and modern literature on an equal basis and to encourage the study of literature for its own sake. The book comprises a set of recently discovered student's notes taken at Glasgow University. *42s*
